

MOTION GRAPHICS ARTIST

PROFILE

I am a Motion Graphics Designer that has been active in the animation industry since 2012. Working with brands such as Jet2.com, Sky Bet, Asda, Halfords, Greggs, The BBC and many more. I have proven I am able to work under pressure to a professional standard and deliver quality animation.

I currently work at Jet2.com, where I create animated and video social media content across all of their main brands. I have run courses on After Effects here to upskill the Creative Services team, and mentored several colleagues to help develop their animation skills. At Sky Betting and Gaming I worked in the Customer Engagement Team, creating impactful social media videos. In my time at CreativeRace Ltd, I worked mainly on digital screen graphics and HTML5 animated web banners. At Distant Future Ltd I worked on a wide variety of animations, often splitting projects with the team to manage them more effectively.
